

Dear NaceCare Customer,

We are truly living in unique times. The coronavirus pandemic is impacting everyone including our businesses and our families. As the situation continues to affect our world, we wanted to reach out and update you on our supply demands.

Like most businesses, NaceCare has a globally integrated supply chain and we continue to monitor the COVID 19 situation closely. Fortunately, our largest manufacturing plant is not in an area adversely affected so we are not currently experiencing supply disruptions.

We are continuing to operate as usual with the exception of implementing additional safety protocols. We have split our staff into operational teams with one team working from our office and one team working from their homes. We are also following the recommended guidelines of social distancing, increased hand-washing and increased sanitizing of common surfaces to keep our staff and our communities safe.

If and when a disruption or change in our ability to supply occurs, or can be reasonably anticipated, be assured that we will be advising customers as soon as possible. As of now our inventories are high and our manufacturing capability is at 100%.

Above all else, our thoughts are with those affected by the virus, particularly those who are sick.

Stay well everyone.

Sincerely,
The Nacecare Team
