NX Network
Power Driving Productivity

Introducing the NX Network

An extensive research and development program, utilizing the latest battery technologies, has resulted in a newly developed 30 cell design delivering a 60% increase in available energy. We have combined this latest battery technology with specially developed digital motors that deliver greater airflow and energy efficiency. The result is enhanced cleaning performance, extended run-times and an unparalleled network of high-performance cleaning equipment.

Quicker, safer and more convenient, utilizing the NX Network of equipment raises productivity levels, reduces battery inventory and saves time and money.

1 Hour Fast Charge

Recharged to 80% in just an hour and ready to go for every product in the NX300 range.

Cost Effective

Made for the long haul, the NX300 won't let you down. Engineered and tested for commercial use - delivering up to 2500 charge cycles.

Runtime

Each product in the NX300 range is engineered to optimize the NX energy storage providing the right balance of runtime and power for each cleaning task.

Newly Designed Digital Motor

350 W High-Performance Digital Motor

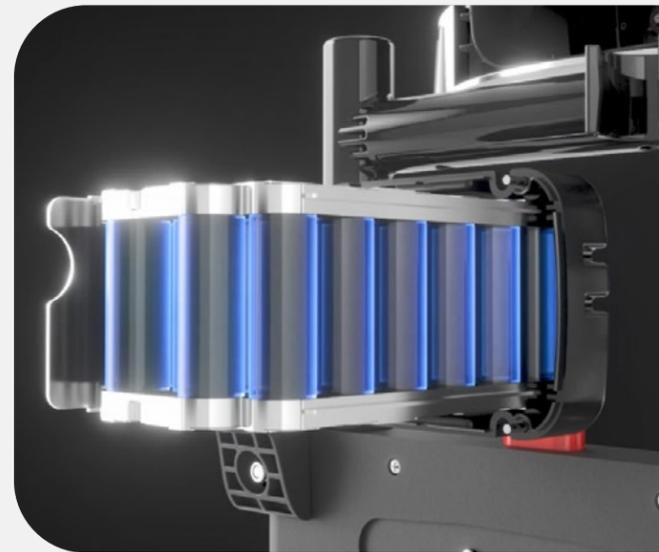

The specially developed digital motors for the NX Network of equipment provide greater airflow and energy efficiency. These motors deliver enhanced cleaning performance and extended runtimes.

New NX300 Pro Battery

The Power that drives the Productivity

The NX Network of equipment is powered by the next generation in battery performance and the specially developed high performing digital motor.

One Fits All Connectivity

The NX300 battery powers the growing NX Network of equipment.

The NX300 battery can be used across the growing Pro Cordless Range. Experience the convenience, safety and power of Pro Cordless with reduced costs and lower maintenance, using a single battery and charger system.

The new NX300 Pro Battery is the next generation in battery performance. Achieve peak productivity for an unbelievable amount of cycles - saving you time & money. 60% increase in available energy achieved through extensive research & development of a new 30 cell battery design.

1 Hour* Fast Charge

Recharged to 80% in just one hour and ready to go for every product in the NX300 range.

Longevity

Made for the long haul, the NX300 won't let you down. Engineered and tested for longevity in commercial environments. Delivering over 2500 charge cycles (10 years of daily use).

Runtime

Each product in the NX300 range is engineered to optimize the NX energy storage to provide the right balance of runtime and power for every cleaning task.

One Fits All Productivity

The convenience, safety and power of NX Battery plus reduced costs and lower maintenance by utilizing a single battery and charger system.

Specifications

| Model | Weight | Battery Capacity | Charge Time | Life Cycle | Shelf Life |
|-------|--------|------------------|-------------------------|------------|------------------------------|
| NX300 | 4.4 lb | 300 Wh | 1 hour-80%/2 hours-100% | Up to 2500 | 6 months *before charging |

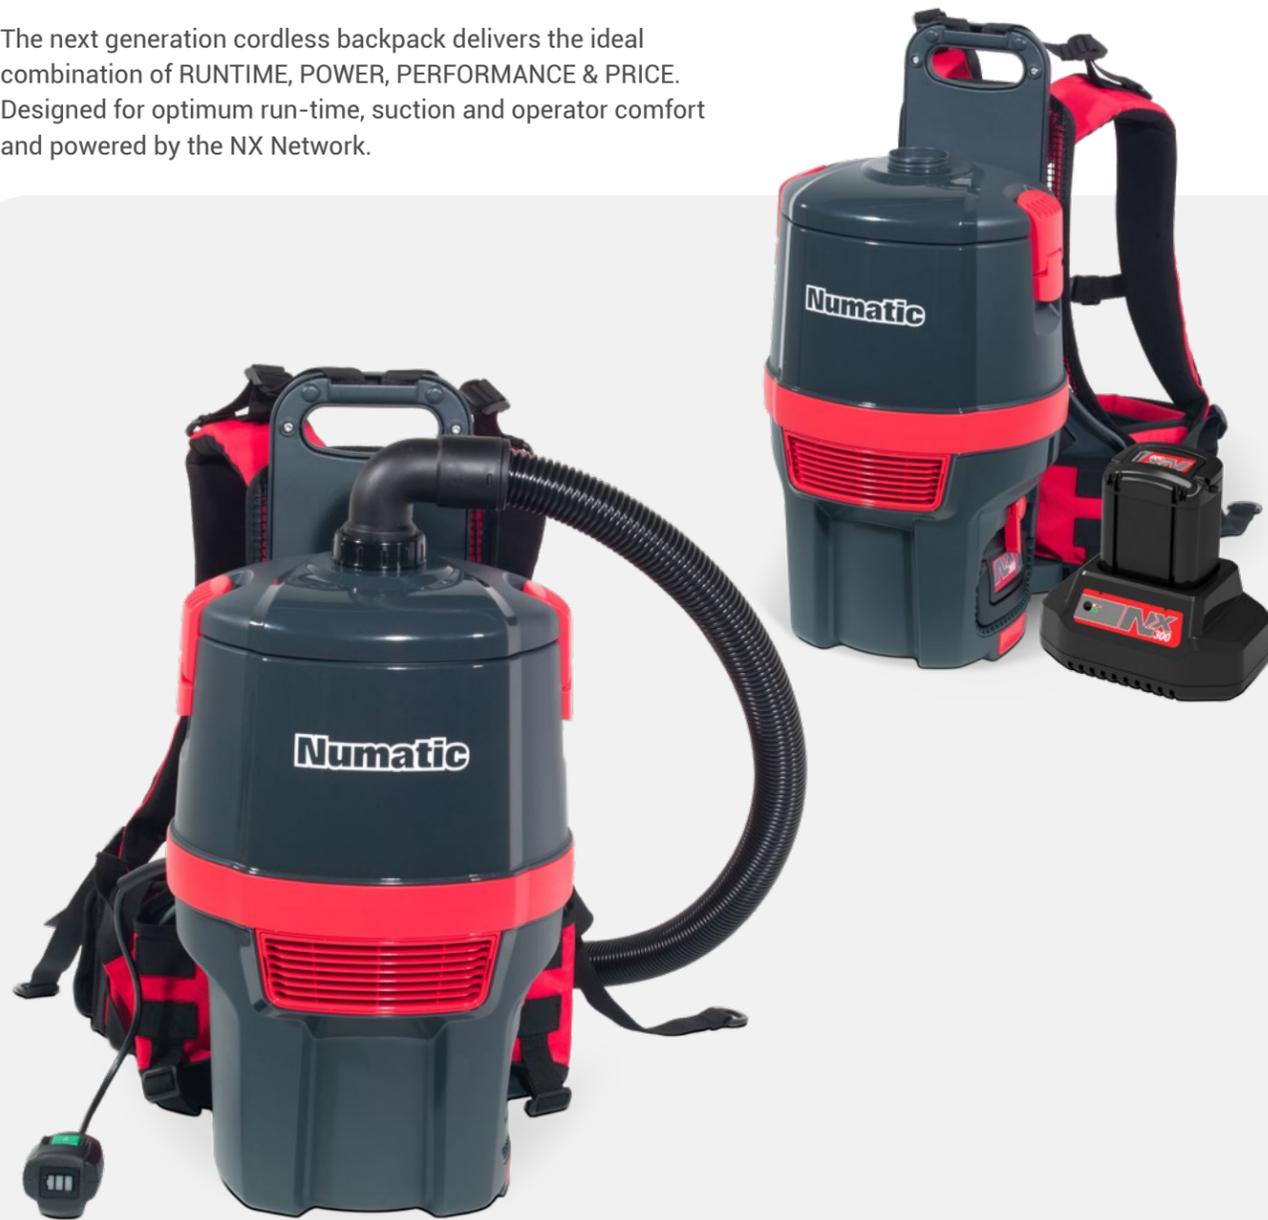

BATTERY BACKPACK VACUUMS

RBV 150NX & RBV 150NXH

Peak Productivity Without Compromise

The next generation cordless backpack delivers the ideal combination of RUNTIME, POWER, PERFORMANCE & PRICE. Designed for optimum run-time, suction and operator comfort and powered by the NX Network.

Maximum Productivity

Equipped with our new NX300 36V Battery Technology and 350W digital brushless motor, the RBV150NX & NXH are engineered to deliver our most powerful cordless cleaning yet. The latest technology delivers up to 90 minutes of cordless freedom, a 50% increase in airflow and suction, and maximum user comfort; the RBV 150NX models provide the perfect balance of runtime, power, performance and price.

Highest Productivity

Cordless backpacks clean 15,000 sq.ft./hr, saving time and money.

Longer Runtime

90 minutes of consistent & powerful cleaning performance. 55 minutes on high power mode.

Powerful Cleaning

50% increase in airflow and suction with new high performance 350W digital brushless motor.

Incredible Battery Lifecycle

NX300 Li-ion Battery with greater than 2500 cycles. The equivalent of 10 years of daily use!

Powerful Motor

More powerful, more efficient new 350W digital brushless motor, with less maintenance and backed by a 5 YEAR WARRANTY.

Safer Cleaning

Cordless cleaning minimizes the risk of slips, trips and falls. Ideal for day cleaning and high-traffic areas.

Optimum User Comfort Pro Harness

Ergonomically designed to reduce fatigue and with height adjustable harness (no tools required), a breathable mesh panel and handy onboard tool storage for accessories and power control.

RBV150NXH With Advanced H13 Hepa Filtration For Better Indoor Air Quality

Specifications

| Model | Capacity | Runtime | Waterlift | Airflow | Weight | Noise level | Power |
|----------------|----------|------------------------|---------------------------|---------------------------------|---------|-------------------------------------|--------|
| RBV150NX | 6 qt. | Lo 90 min Hi 55 min | 82" on high 56" on low | 75 CFM on high 48 CFM on low | 15 lb | 63 dB(A) on high 61 dB(A) on low | 300 WH |
| RBV 150NX Hepa | 6 qt. | Lo 90 min Hi 55 min | 82" on high 56" on low | 75 CFM on high 48 CFM on low | 18.5 lb | 63 dB(A) on high 61 dB(A) on low | 300 WH |

Triple-layer HepaFlo Filter Bag

Advanced, 3-stage filtration system cleans and traps fine dust, including allergy triggers and pathogens, eliminating the risk of recirculation and exposure.

TriTex Filter

Traps fine dust within its high-efficiency, triple-layer membrane.

HEPA13 Filter Cartridge

Certified HEPA13 filtration down to 0.3 microns at 99.97% efficiency. The most advanced filtration in our commercial vacuum series.

NBV 240NX & NBV 290NX BATTERY CANISTER VACUUMS

Peak Productivity Without Compromise

The next generation cordless canisters with the ideal combination of RUNTIME, POWER, PERFORMANCE & PRICE. In applications where backpacks are not practical, the NBV 240 & 290NX canisters are designed for peak productivity with optimum run-time, suction, and powered by the NX Network. Perfect for day cleaning and safe operation in public areas. The NBV canisters maximize productivity and deliver powerful and professional cleaning results.

High Productivity

Cordless canisters clean 10,000 sq.ft./hr. saving time and money.

Cordless Freedom

Market-leading 90 minutes of consistent and powerful cleaning performance.

Powerful Cleaning

50% increase in airflow and suction with new, high-performance 350W digital brushless motor.

Safer Cleaning

Going cordless minimizes the risk of slips, trips and falls. Ideal for day cleaning and public areas with high foot traffic.

Incredible Battery Lifecycle

NX300 Li-ion Battery with greater than 2500 cycles- the equivalent of 10 years of daily use!

NX300 Network

Bringing the convenience and performance of professional cordless cleaning across our growing battery range.

Great Features For The Toughest Cleaning

Includes tough bumper for wall and door protection, large rear wheels for ease of transit, and professional toolkit.

Ease of Transport

The large rear wheels provide stability and ease of transport on stairways. NBV 290NX is equipped with telescopic pull handle for convenience and lift-off storage caddy for extra supplies.

Specification

| Model | Capacity | Runtime | Motor | Weight | Power | Waterlift | Airflow | Dimensions | Kit |
|-----------|------------|------------------------|-------|--------|-------|---------------------------|---------------------------------|-------------|------|
| NBV 240NX | 2.5 gallon | Lo 90 min Hi 55 min | 350W | 18 lb | 36V | 82" on high 56" on low | 75 CFM on high 48 CFM on low | 13"x13"x16" | AST5 |
| NBV 290NX | 2.5 gallon | Lo 90 min Hi 55 min | 350W | 23 lb | 36V | 82" on high 56" on low | 75 CFM on high 48 CFM on low | 16"x18"x24" | AST5 |

The 244NX Compact Scrubber delivers fast, effective cleaning across all hard floors.

Often, the only solution when cleaning in small and congested areas has been traditional mopping, typically leaving floors wet with inconsistent results. Lightweight and easy to use, the **244NX** leaves floors clean, dry and safe while reducing labour costs by 70% and water use by 80%.

Scan to see it in action

One-Pass Performance

One-pass cleaning performance is achieved by applying brush pressure and powerful drive motors with the right amount of water in the right place.

Smart & Sustainable Water Distribution

The centrifugal delivery of water using a direct feed through the brushes minimizes overall water use, has no messy spray-off and increases efficiency by reducing time-consuming refills.

Easy Cleaning Park-Up Mode

“Park-Up” feature allows users to quickly park-up to move obstacles or carry out other cleaning tasks.

NX300 Cordless Cleaning Network

The NX300 Cleaning Network brings the convenience and performance of professional cordless cleaning across our growing battery range.

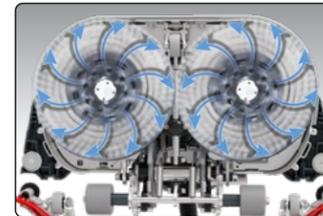

244NX Compact Scrubber

Colour-coded Touch Points
Operator friendly colour-coded touch points.

Easily Removable Tanks
Simple and fast emptying and filling.

Centrifugal Water Delivery
The direct water feed to the centre of the brushes distributes evenly and consistently across the cleaning area, delivering best in class water efficiency.

Counter Rotating Brushes
Delivering controlled and lightweight handling with no messy spray.

Easy to Use
Simple to set up and easy to use, by any operator.

Fully Adjustable Handle
Find the perfect working position with fully adjustable handle.

Adjustable Water Flow
Easily adjust water flow to suit your cleaning.

Foot-operated Floor Tool
Eliminates frequent bending.

Specifications

| | |
|-------------------------|--|
| Model | 244NX |
| Power | 36 V |
| Brush Speed | 140 rpm |
| Cleaning Path | 18" |
| Solution Tank | 0.6 gal. |
| Recovery Tank | 0.8 gal. |
| Coverage per Tank (Eco) | Up to 7320 ft ² / tank (34 Minutes) |
| Weight | 46 lbs |
| Dimensions (WxLxH) | 20.5" x 18" x 47" |
| Runtime | Up to 80 mins |
| Charge Time | 1 hour – 80% / 2 hours – 100% |

Nyloscrub Brush
Machine comes standard with 2 brushes.
Suitable for: Daily Cleaning

Optional pads and brushes for different applications

Folding handle for storage and transport.

TGB 516NX COMPACT SCRUBBER

The 516NX Battery Scrubber offers incredible cleaning in a compact, cordless and convenient design. The high-performance digital motor, combined with powerful NX300 36V battery technology, delivers clean, dry floors every time with the performance of a much bigger machine.

Easily removed for fast charging.

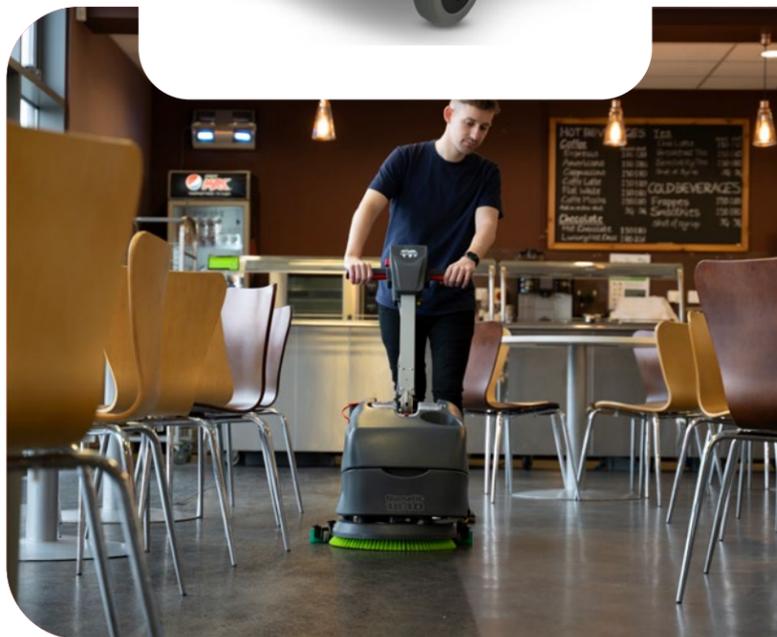

Compact, Cordless and Convenient

With the cleaning performance of a much bigger machine, the TGB 516NX is ideal for cleaning tighter spaces and larger public areas. The clever tank design is compact while still offering 5 gallon capacity for non-stop cleaning.

Clean, Dry, Safe and Streak-Free Floors in Minutes

Centrifugal water delivery system ensures even distribution across the brush or pad for optimum cleaning results. Serilor® rear blade design incorporates two layers for maximum cleaning contact, leaving a dry, streak-free floor.

Fast Charge

Charged and ready to go in just 1 hour. The NX300 battery packs recharge to 80% in just 1 hour. Fast charge and a quick change design make it ideal for non-stop cleaning.

Stay Cleaning for Longer

New NX300 36V Battery Technology delivers 300Wh energy storage capacity with 60-80 mins runtime, delivering consistent, powerful cleaning.

NX300 Cordless Cleaning Network

The NX300 Cleaning Network brings the convenience and performance of professional cordless cleaning across our growing battery range.

Support at your Fingertips

Access a wide-range of multilingual help and support, including troubleshooting and maintenance content, through the Nu-Assist App or on our website.

Simple pad and brush change.

Cleans right to the walls.
