

NACECARE TURBO MOP™

NACECARE *turbo mop*™

The first compact "Clean Anywhere" scrubber

Using a mop & bucket is the most labor intensive and ineffective way to clean floors but tight spaces have made it a necessary evil.

Now, the Turbo Mop brings the power and performance of a battery scrubber to a compact and versatile machine that truly cleans any floor surface in virtually any area. From wall to wall, under chairs and stalls and into the tightest corners: entrance mats, grouted ceramic, highly polished surfaces and even rubberized floors are no obstacles for the Turbo Mop.

Powerful, lightweight, maneuverable and easily transportable, the NaceCare Turbo Mop™ is the ideal compact scrubber for picking up dirt and debris in Kitchens, Foodcourts, Washrooms and anywhere you would traditionally use a mop and bucket.
