

LEADING THE NEXT GENERATION OF CLEAN

Introducing the Ultra 45, a cutting-edge system that sets a new standard for cleaning. It leaves all other scrubbers in the dust. This lightweight, easy-to-transport machine is not only simple to maintain but also delivers top-tier cleaning performance.

DUAL CYLINDRICAL BRUSHES

For excellent cleaning results; especially on grouted surfaces

3 HOUR RUN TIME

Cleans for 50 minutes and 15,000 sq. ft. on a tank of water

TIGHT AREA CLEANING

Can be used in the upright position for tight area cleaning

ONBOARD CONTROLLER

Regulates brush RPM, optimizing the longevity of the brush motor and gears. This feature ensures consistent performance and reliable run time, contributing to the machine's durability and efficiency.

3 CLEANING PERFORMANCE MODES

Which set the brush RPM

EASY MAINTENANCE WITH QUICK-CHANGE COMPONENTS

Includes the vacuum motor, water pump, electronic board, and brush motor and gear assembly. This feature enables operators to replace parts themselves, minimizing downtime and virtually eliminating the need for on-site servicing.

Cleaning Width	17"
Solution Tank	0.9 US gal
Recovery Tank	1.1 US gal
Brush Speed	Up to 1,000 rpm
Run Time	3 hours
Run Time on a Tank	50 minutes
Charge Time	80%: 60 min 100%: 90 min
Battery Life	1,000 cycles
Productivity	18,000 sq. ft./hr.
Feet Cleaned per Tank	15,000 sq. ft./tank
Lithium Battery	36 Volt
Cylindrical Brushes	2
Weight with Battery	37 lbs
Weight without Battery	33 lbs

SHORT, EASILY ACCESSIBLE HOSE

For quick and easy cleaning, unlike other machines where the hose runs on the handle from the bottom.
